

MONTHLY FIRE CHIEFS REPORT

Regular Meeting: September 14, 2021

Operations:

- We responded to 44 calls in August.
- Tender 57 has been out of service since the beginning of August. It has been seen by two different shops and currently no solution to the problem has been found.
- The new extrication equipment that was purchased with a small portion of the trade in money have been put in service.

Wildland:

- Brush 56 returned yesterday from a full 14-day roll at the Black Mountain Fire near Kremmling, I hope to relist it available soon.
- No current fire bans in our district.

Administration:

- Galen, Clay, and myself traveled to Canada to the plant where our new engines are being built. We spent about 14 hours in prebuild meetings and we are very excited. These trucks are going to be great for our district.
- Jen and I are working hard on next years budget and will be presenting the first draft at our next meeting. The preliminary assessments reflect approximately a \$150,000 increase in property tax revenue.
- September 18: Station 1 Magnolia Road: Galen and John retirement party and open house.
- All hands meeting November 19th.
